Technical Support Division

- **Our technical support service division was formed in 2005 primarily to assist all projects with technical manpower**
- **We provide the equipment's and manpower to our client's on a Rental basis on a short notice at their Requirements**
- **The division is composed of highly qualified professional engineer's technicians, electricians, welders, fabricators mechanical fitters and civil workers**

Work experience with our clients

ARAMCO EWPD PS#7 & #8 SEC 33Kv Metering Connection

- Supply and apply / Connecting PS# & PS#8 with new SEC33Kv,
- SEC room Construction
- Trenching works
- Concrete works for foundations and fence
- Excavation and Backfilling
- Demolitions
- Construction of duct bank
- Cable pulling
- Installation of SF6 and transformer
- Cable termination
- Testing and commissioning.

Road Base And Curbstone Works

- Road Construction
- Backfilling Work
- Subbase and Base Coarse
- Earthworks, Excavation,
- Curbstone Installation

Work experience with our clients

Work experience with our clients

King Salman International Complex For Maritime Industries And Services Project – Ras Al Khair

- The scope of works include Backfilling Works for Waste Water Drainage (Sanitary Sewerage), Industrial Waste water, Storm Water, EDB (Electrical Duct Bank) And Electrical Cable pull Pits, TDB and Manhole.
- Material unloading, Material inspection and acceptance, Survey and relevant acceptance.
- Earth Excavation at site and dispose the excavated materials to designated project site location, Perform all operation necessary and required to satisfy the Client.

Procurement and Construction of Sales Gas Delivery System for PP-14 Power Plant in Riyadh, Saudi Arabia

- Clearing & Grubbing, Earth works, Excavation, Backfilling, Compaction, Concrete Foundation, road works, asphalt paving, road marking and signage, demolition.
- Scraper Launcher And Scraper Receiver all civil works
- Metering Station: Building works, finishing works, roofing works, doors, suspended ceiling, raised flooring.
- Perimeter fence, SSD1 fence installation, HCIS Fence.
- Patrol road & access road construction.

Work experience with our clients

Work experience with our clients

48" and 28" Sales gas P/L works at PP10 & PP14

- ROW preparation, Trench excavation, sand bedding, Berm fill, camel crossing, KM marker installation, test station preparation.
- Excavation, Trenching, levelling, sand bedding & back filling of direct buried FOC cable, electrical & instruments cables.
- Thrust boring /HDD activities.
- Thrust Anchor Block Construction.
- Burn pit Construction with refractory concrete.

Earth work Site development and backfilling / for (Valve station) pipe line project

- Mobilization of all equipment and manpower in a sufficient quantity to undertake the SERVICES as per Subcontract Program.
- Surface preparation prior to start backfilling, including removal of 150 mm topsoil and all others duties .
- Supply and install select fill material regardless of depth including, but not limited to, hauling, loading/unloading, transporting, handling, placing, compaction and testing (measured inplace); SAND
- Supply and install select fill material regardless of depth including, but not limited to, hauling, loading/unloading, transporting, handling, placing, compaction and testing (measured inplace); MARL.
- Ccompaction and testing (measured inplace); PLANTING SOIL.
- Excavation regardless of depth including ,but not limited to, removal and disposal of excess material to a dump site approved by SAUDI ARAMCO
- Disposal of excess material beyond Agreed km from WORK Site.

Construction of flood protection bund BGCS#03/05, 11/2017 to 03/2018

- Cleaning soil , including through eliminate grass,vegetable earth, grit of large particle size, tree root. (The average depth of cleaning 0.5m)
- Body backfilling with clay, composite GEMembrane installation and groove of cut off seepage excavation 1.5m x 1.5m
- coarse sand material backfilling, rock protection, flood channel excavation and slope protection.
- Asphalt concrete work of road and pavement, including prime coat, MC-70, asphalt concrete binder course, tack coat, asphalt concrete wearing course, curing and protection of asphalt concrete

LOHUON AL ARABIA GENERAL CONTRACTING EST.

Earth excavation and HDD Thrust boring SA003-SS-053-00

- **Sales gas pipeline trench:** 30000 M3 Excavation (destination of 5 Kilometre) and 80000 M3 backfilling that including 6 No's of camel/light vehicle crossing.
- Installing of steel sleeve pipe 20" & 28" steel product pipe to an estimated destination of 1337 meters
- **Communication trench :** 30000 M3 excavation, cable lying, 35000 M3 backfilling, marks, cutting and restoration

West Pump station-3 Civil works 07/2010 to 10/2012

- Excavation of trenching and Back Filling for pipe line.
- Supply and apply of aggregate Base and sub-base Course.
- Supply and installation Curb Stone for main access road (18 km long)
- Installation of roof mounted PV modules for ambient lighting system (power Grid connected)
- Supply and Installation of Temporary Fence
- Construction and installation of Construction of road embankment and Culvert for NWC Water pipe line

Work experience with our clients

Wasea Bulk Plant and site erection of chemical storage tank, 01/2016 to 03/2016

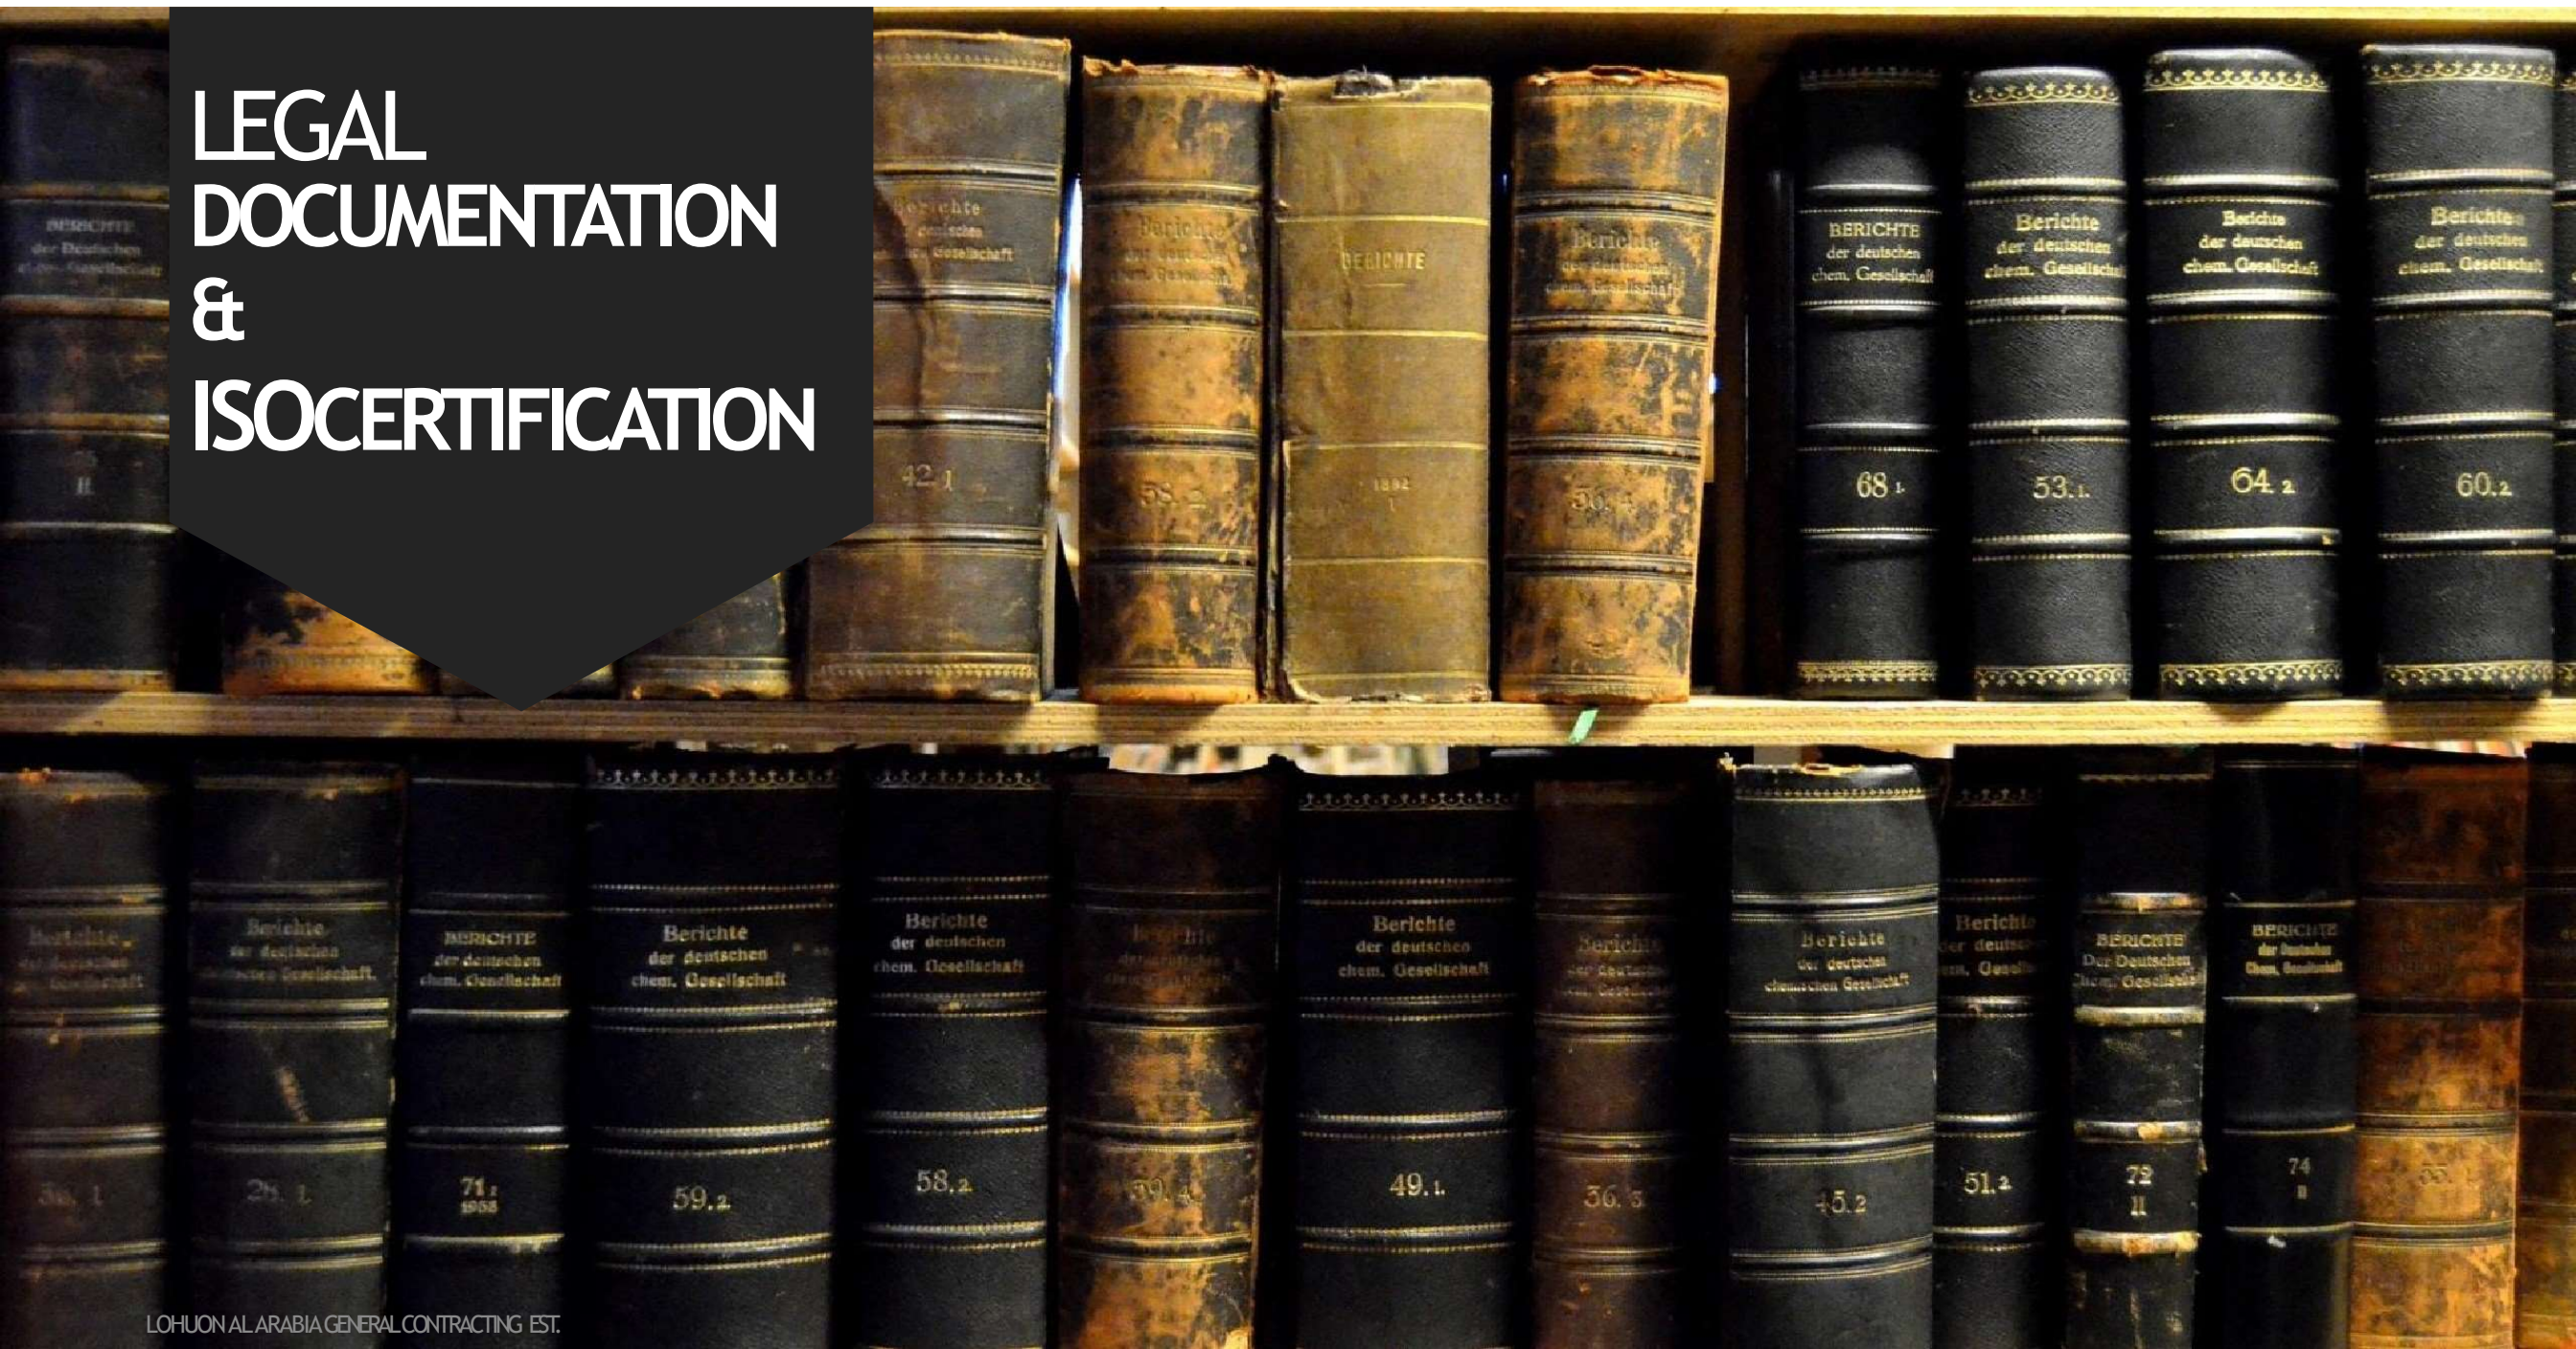

- Installation of 300 Cu.m storage tank with auxiliary piping connections (roof vents, spray cooling, inlet and delivery piping, level control valves and fire hydrants) .
- Installation of fixed roof structure for storage tanks.
- Earth foundations with course bedding
- Installation of 30w solar powered street lighting system for staff portable cabin area
- Supplying and apply of compact and level of concrete with 300 mm thick re enforced with double layers of 16mm epoxy coated steel.
